AMERICAN MOULDINGS,
DOORS, SASHES,

WINDOW FRAMES, GREENHOUSE SASHES,
BALUSTERS, STAIR RAILS, NEWEL POSTS,

&c., &c.

The Brands are well known in almost every part of the world, and the timber used is the very best. All Doors of this manufacture have not less than $4\frac{1}{2}$ inch stiles and 9 inch lock and bottom rails, and are branded with Cross , Diamond , and Star .

The Cross  Brand of Doors are made from timber having a few sound knots.

The Diamond  Brand have but very few knots, and both  and Diamond  Brands are equal in finish and workmanship to the best or Star  Brand.

The Star  Brand Doors, made from selected timber, are entirely free from knots or sap, and are perfect in every respect.

The Star  Brand, to which we call particular attention, are designed for those who have been accustomed to making their own work, and are made to meet this demand as well as for contracts.

These Doors are made of **AMERICAN PINE**, thoroughly seasoned, well glued, and perfectly kiln or stove dried, and can be seen at our Wharves, Reading, Newbury and Maidenhead, and also in large quantities in London.

PRICES IN LONDON.
